WHAT WE STAND FOR

Divided politics, united religion, an amalgamated society, and
national belief in the yesterday, today and tomorrow.

A SHOCKING EVENT

The death of William Mortimer by accident Wednesday evening was a shock to the entire community of Provo. Mr. Mortimer has always been known for good in Provo and besides has reared a family that is an honor to his name. His sudden death by accident was one of the disasters which cause people to pause in their work and speculate upon the difficulties of life.

Mr. Mortimer's family awaited his coming to supper. He was in good health and expected to live many years upon the earth. He was on his way home no doubt happy and eager to be once more with those whom he loved.

Then suddenly fate overtook him. Fate this time was in the form of an automobile driven by a 16-year-old boy. The lad, too, was driving unconscious of the tragedy which lurked at his elbow.

There was a sudden impact, a wheel hurtling to the pavement, a man falling to the ground!

The boy was unhurt physically, but mentally he was wounded in a manner which will leave a scar upon him the remainder of his life, whether he was much to blame in the matter or not.

Too often we repeat too late. Though the lad may have been perfectly in control of his car, though men and angels absolve him from blame, the accident might have been avoided as nearly all accident might have been had fore-thought compelled the lad to drive in such a manner as to make such an accident impossible.

Those who have not yet "got their man" in this unfortunate manner should take a lesson from this and similar accidents, but perhaps they never will.

CORRELATED ART

The program which will be given on University Hill Thursday evening at 7:30 will be interesting in many ways, there is no doubt. Here we are to see the arts hand in hand working together for an evening in perfect harmony.

Literature, music, drama, dancing, color work, architecture

Songs

are to come together in one artistic unit for the entertainment of those who love such things. The result ought to be educational as well as entertaining.

The arts, of course, go together, or always, because emotion is the stuff of which all are made. If one hears beautiful strains of music, his emotions rise in him and he thinks beautiful thoughts which are literature, or he sees landscapes, in his imaginations, which are painting; or he sees dancing forms, or magic costumes rise. In the program Thursday evening all of these expressions will be ready.

Behind the performing group will be the chaste Greek lines of the Mæser; over all will be the bending blue sky; beyond, the colorful peaks. What a setting for the muses! What a mixing bowl for the arts!

SUMMER

Utah has her many seasons, but of them all, that one which happens at the time to be in fashion, is best. Right now it is summer.

And how wonderful is summer!

It is dreams come true; promises made good; prophecies fulfilled. It is as if all the promises made out and signed by Spring had suddenly been paid in full.

In summer streams are clear, leaves are full, flowers are at their best. Life is everywhere, rich abundant. Death and dissolution are hidden behind a screen of living things.

Summer, just now, is in the saddle. May she ride high and handsome.

While flying through heaven, she is easy.

Heaven is not over there anywhere. It is here and now, or else it isn't or never will be.

you are sure of achievement.

Cal rhymes with Al, but it would take a courageous poet to put them in the same bit of verse.

Art Notes

Virgil Hafen, a son of John Hafen, well-known Utah painter has an exhibition of paintings in Room D. These paintings are of scenes in the northwest where Mr. Hafen is teaching in the University of Oregon.

The paintings on the rostrum this week are "The Big Balsam," by Calvin Fletcher, a former student of B. Y. U. and now head of the art department of the Utah Agricultural college; "Bridal Veil Falls," by Roy Gardner, supervisor of art in Murray high school.

These views in front of the rostrum which have been placed by Professor E. H. Eastmond, head of the art department, have featured the trail to Timpanogas.

The art of the summer school students will be featured in an art exhibition next week beginning Monday.

FORESTRY IS SUBJECT OF INTERESTING LECTURE

Continued from page 1
serving forests was mentioned by the speaker. And he also said that man should refrain from such promiscuous killing as has gone on heretofore. And that the game laws should be more rigidly enforced.

Boy Scouts, Camp Fire Girls, and such organizations are aiding in these preservations and are doing much to instill in the hearts of future Americans the need of a knowledge of forestry.

Good forests are much in demand and ever will be. If we would have those which we already have in tip-top condition; if we would have our cultivated land productive, we will see to it that we will have continued protection of our forests and that these forty-three million acres will be

properly taken care of—so that the nation may have an added supply, from Utah, to replace the sixteen billion feet of lumber used per year, and we will also do as Mr. Wheeler suggested.

"Handle our trees as a crop, where-in they may be replenished, rather than as a mining proposition (when once they are taken from the ground their places are not refilled.)"

A musical program will be a feature of the assembly which will be held on Wednesday of next week. Since it is to be the last assembly of the first term of the summer session, Dean Cannon declares it is to be made memorable.

Professor William F. Hanson and other members of the music and dramatic art departments are preparing an unusual program.

PARTY EXPLORES GROVE CREEK TRAIL

Grove Creek Trail and Excelsior Point were the objectives of a horse-back party Wednesday afternoon which was taken under the direction of Reed Warnick, proprietor and manager of Camp Altamont.

The party, consisting of Dr. Stanley Clark, Dr. Madison W. Merrill, Mr. Weiss Hummel and his son Sam, Mr. Gunner Hummel and H. R. Merrill, enjoyed a splendid shower as they were riding around the Hornet Thrush trail above the cave in American Park canyon.

The party, guided by Mr. Warnick, visited a point immediately above the cave which commanded an inspiring view of the canyon and of the peaks off to the north.

Upon being asked by Mr. Warnick what the point should be named, the group was unanimous in declaring it should be called Excelsior Point. It is doubtful, all agreed, if there is a finer view in the entire state of Utah than that had from the point.

The party reached Camp Altamont about 8 o'clock, where an excellent supper and bed awaited them. The return was made via Aspen Grove in a car furnished by Mr. Pugh, who is handling the Hingham bus lines in Provo.

The Hikers' trail, a lawn festival, will be held on the University lawn Thursday evening next week, just prior to the school's leaving for Aspen Grove.

A letter from Professor T. Earl Pardoe declares that he and his family are enjoying daily the Pacific ocean. He says they are living in a nest overlooking the sea where they can see the waves roll in from the rocky deep. The Pardoes expect to remain on the seashore until school starts next fall when they will move into Los Angeles.

Scenes taken in the Holy land were reviewed at the Strand theater Tuesday at 11:30 o'clock through the courtesy of Mr. Ray Button, manager. The pictures were of cities and scenes in Palestine.

Timp-stocks with heads cast from chrome-nickel steel are being made for the Seventeenth Annual Timpanogos hike, according to Joe Nelson and "Gimpy" Vuketich, who are sponsoring the enterprise. The Timp-stocks are to be sold on the grounds as souvenirs and also as helps in getting up the mountain.

A Timp booklet containing the history of the hike, songs of the hike, and other interesting material, is being published for distribution at the Theatre of the Pines. Since there is some expense attached to the big outing, and since there is no way of financing the hike, the program will be sold for 10c, the proceeds to go toward expenses.

There is no place like home, and some married men seem to be glad there isn't.

A one-piece bathing suit for women would not be so bad if they were more generous with the piece.

A tutor who toots his own horn too much is apt to come out at the little end of the horn.

Some men are poor because they are honest. Others are honest because they are rich enough and can afford it.

Never look for a leak in the gas pipe with a lighted candle; you may be able to find it, but the coroner may not be able to find you.

INVENTED CHARLESTON

She—Who invented the Charleston, anyway?

He—Oh, I presume it was some real estate guy who is booming the place.

HOPELESSLY LOST

Would you believe it? This girl follows all the latest hints she reads.

"Well, she certainly is a big w behind them."

SAD CASE OF LOVE

Slater—Do you love me more than anyone else, Bobbie?

Bobbie—Sure.

Slater—Then go out when Tom calls tonight.

Bobbie—Then you don't love me as much as I love you.

KITTENS BECOME CATS

"She's as wholesome and as playful as a kitten."

"Don't forget she'll grow up."

THE ONLY ONE

"Well, I at least have one friend who has never looked me up in Broad street."

"Who is that?"

"My dog."

VERY AFFECTIONATE

Hubby—Tom's wife is very affectionate. She calls him "the king."

Wife—And then crosses him with a rolling pin.
